## Camp Resources XXV

Over 50 graduate students, young professionals, faculty and senior mentors from around the country gathered in Wrightsville Beach, NC August 12-14, 2018 to discuss current research in environmental and resource economics. **Camp Resources** — now in its 25th year — is an internationally known summer intensive workshop where the next generation of scholars present their work to each other, and to senior faculty and mentors from universities, government agencies, and think-tanks from around the country. Below is the workshop program with titles, presenter names, and affiliations.
